Regulations for occupational safety and hygiene of the Department of Physiology of the Poznan University of Medical Sciences

1. During the seminars and exercises held in the Department of Students, wearing protective blankets and appropriate shoes is obligatory, except for the classes indicated by the Academic Teachers in the subject sheets.
2. During exercises with biological material e.g. blood, the Student must use disposable nitrile protective gloves in the gyms.
3. Students are strictly forbidden to consume food and beverages during classes and to smoke tobacco products and electronic cigarettes throughout the Department.
4. Students are strictly prohibited from consuming alcoholic products and substances considered narcotic.
5. The student is prohibited from bringing upper clothes and large-scale personal items into the teaching rooms.
6. The objects used for the tests should be used according to their intended use, only with the consent of the conductor.
7. Any damage to the instruments should be to the teacher immediately.
8. Failure to comply with the instructions of the persons conducting the course may result in exclusion from the course and/or charge of costs for material damage incurred.
9. In cases not covered by the above instructions, you must strictly follow all the student's recommendations.
